Subject: SCHEDULED POWER INTERRUPTION FOR FEBRUARY 12, 2026

Date: **February 11, 2026**

This has reference to the announced scheduled power interruption from Pampanga Electric Cooperative II on February 12, 2026 which will affect all barangays of Porac. In relation to this, the Main Building is equipped with a Generator Set to supply power in this kind of instances.

Hence, in order not to hamper the Business One Stop Shop (BOSS) Operations of this Municipality, this office recommends that all departments return to their physical offices in the main building and continue to process Business Permit applications manually. It is also recommended that the Bureau of Fire Protection maintain a skeletal workforce to be situated in the Main Building so that clients may still be seen accommodated regarding their concerns.

For information.
